**OPERATION INSTRUCTIONS**

1. Open the lid, and fill stainless steel tank with water.
   Running without water may damage the unit!

2. Place item into water.
   The item should be immersed well into the water. However, the water do not exceed "MAX" mark or below "MIN" mark.
3. Plug in the unit.

4. Press "SET" button to choose working cycle freely. When the unit is electrified, 180s is displayed automatically. It is the most commonly used working cycle. Every time when press "SET" button, the 5 optional working cycles from →180S→280S→380S→480S→90S, will be displayed on the screen.

5. Press "ON" button to start cleaning and the red indication light is on. During cleaning, you can hear the "ZIZI" voice, it means the unit is working.

6. When reach the time of "00" the unit will auto stop, the red light will turn off. If another cleaning is needed, just repeat the above steps. During cleaning, if you want to stop, just press "OFF" button. Press "NO" button again, the unit will implement the remainder program to continue the cleaning. Furthermore, you can press "SET" button to renew working cycle.

7. When cleaning is finished, unplug it and open the lid, then take out the item. At last, pour the water from stainless steel tank and wipe it up.
FOUR WAYS OF CLEANING

GENERAL CLEANING
Use only plain water for general cleaning. The water should merge the item to be cleaned, but not exceed "MAX" mark and below "MIN" mark.

ENHANCED CLEANING
When the item is smeary or extraordinary dirty, add about 5-10ml of detergent into water to enhance cleaning result.

CLEANING BY PARTS
For large items, partly cleaning as shown.

DIRT ELIMINATION PROCESS THROUGH ULTRASONIC TECHNOLOGY

Many tiny bubbles are generated under the action of ultrasonic.

Bubbles are imploded constantly under the action of ultrasonic to impact the surface of the item.

The impact splits up the dirt into many granules and separates them from the surface of the item, the granules then come into water.
**WARRANTY**

Sper Scientific warrants this product against defects in materials and workmanship for a period of **one (1) year** from the date of purchase, and agrees to repair or replace any defective unit without charge. If your model has since been discontinued, an equivalent Sper Scientific product will be substituted if available. This warranty does not cover probes, batteries, battery leakage, or damage resulting from accident, tampering, misuse, or abuse of the product. Opening the meter to expose its electronics will break the waterproof seal and void the warranty. To obtain warranty service, ship the unit postage prepaid to:

**SPER SCIENTIFIC LTD.**  
8281 E. Evans Rd., Suite #103  
Scottsdale, AZ 85260  
(480) 948-4448

The defective unit must be accompanied by a description of the problem and your return address. Register your product online at www.sperwarranty.com within 10 days of purchase.

---

**USER MAINTENANCE**

1. Unplug and empty the unit after using.  
   - Do not keep water in the tank for a long time.

2. Wipe the tank and housing with dry towel.  
   - Do not wash the unit with water to avoid electric shock.

3. Keep in cool and dry place.
